

# GAUTAM SHARMA

## Frontend Developer

[futuristic.gautam@gmail.com](mailto:futuristic.gautam@gmail.com) | [+91-8875159069](tel:+91-8875159069) | [github.com/ZEUS-03](https://github.com/ZEUS-03) | [Portfolio website](#)

## Skills

JavaScript | React.js | Redux | jQuery | Typescript | Tailwind | Bootstrap | MySQL | Jest | Git | Jira | Version Control | NodeJS

## Work Experience

### Sarvika Technology | ReactJS Developer

04/2023 – 04/2024

- Spearheaded the development and optimization of key frontend features for an E-commerce platform, including product browsing and checkout processes, resulting in a 20% increase in conversion rates.
- Led the integration of advanced performance optimization techniques, such as **code splitting**, **lazy loading**, and **caching strategies**, resulting in a 30% reduction in page load times.
- Collaborated closely with cross-functional teams to understand business requirements, translate them into technical solutions, and deliver scalable features and enhancements on time and within budget.

### Rams Technology | JavaScript Developer

06/2020 – 03/2021

- Implemented the Velocity template engine to dynamically generate HTML content for the company's e-commerce platform.
- Integrated third-party APIs and services, such as shipping carriers and tax calculation providers, to automate order processing and streamline logistics operations resulting in a 25% reduction in manual order processing time.
- Implemented SEO optimization strategies for the E-commerce platform, including metadata optimization, resulting in a 25% increase in organic search traffic and improved search engine rankings.

## Education

### Suresh Gyan Vihar University, Jaipur

2021 - 2023

- Master of Computer Application

### Maharishi Arvind University, Jaipur

2018 - 2021

- Bachelor of Computer Application

## Projects

### Full Stack E-commerce App

*React.js, Express.js, MongoDB, Tailwind CSS*

- Architected and implemented a robust full-stack e-commerce solution utilizing React, Express, and Tailwind CSS, optimized app performance, resulting in a 30% faster page load.
- Engineered a robust backend system utilizing Node.js and Express to handle user authentication, data storage, and efficient communication between the client and server.

### Social Media Application

*React.js, Express.js, MongoDB*

- Enhanced user experience by creating a user-friendly React, Express interface, making it responsive and speeding up page loads by 20%.
- Engineered a scalable backend with Node.js and Express, achieving a 25% improvement in data processing speed and user authentication.

## Achievements and Extracurricular Achievements

- Solved over 350 coding challenges on platforms like LeetCode, Codechef, and GeeksforGeeks.
- Orchestrated and executed a world record event, leading a team to launch 400 websites in a single day at the university.
- Spearheaded and successfully organized a coding hackathon, attracting over 200 participants and fostering a collaborative coding culture within the university community.
